Details MAKE THE Difference

Many homeowners approach tile installation projects with a list of materials consisting of thin-set, tiles, and grout...But it doesn't stop there. In fact, the only way to achieve a tile installation as beautiful as it is functional is through the use of finishing and edge-protection profiles.

Ceramic and stone tiles have become a popular trend in the design industry due to the durability and aesthetic appeal they offer. The extensive variety of available shapes, colors, patterns, and sizes open the door to unlimited design possibilities. Unfortunately, a lack of trim pieces such as bullnose or quarter round in many tile lines can limit design options.

Schluter®-Systems offers a solution to this problem with various finishing and edge-protection profiles increasing design flexibility because they can be integrated with any field tile.

Protect the edges

Though tiles are extremely durable, their edges are vulnerable to chipping and cracking if left unprotected. Imagine investing your time, money, and hard work into a tile project, only to end up with chips in your tile edges.

Schluter® Profiles are designed to produce a long-lasting installation by protecting tile edges from damage.

Caulking - a thing of the past

Nobody likes caulking. It is used purely out of necessity to seal joints or seams, and allow for movement at floor/wall transitions and inside wall corners, or where tile meets a fixed element. Not only is caulking unsightly; it is not a permanent solution.

Schluter® Profiles eliminate the need for caulking in tile installations. With cove-shaped profiles for floor/wall transitions and inside wall corners, and movement joint profiles with flexible zones to absorb movement; caulking has become a thing of the past.

Just for looks

While the majority of profiles are produced to meet functional installation needs, they can also be used to enhance the design. Schluter®

Decorative Profiles are produced exclusively for design purposes and are available in a variety of finishes to accent the field tile, match fixtures in the room, or create a decorative border around a mosaic insert.

A profile for every style

Schluter® Profiles can blend with the tile color for a subtle finish, or contrast with the tile to create an accent.

Whatever your design style, the wide variety of available materials, finishes, colors, and styles of Schluter® Profiles helps ensure you will find a profile suiting your decor and installation needs.

Unleash your creativity!

Visit SchluterHouse.com

The Interactive Tile Center

The Schluter® House is an interactive and educational website where you can navigate through the rooms of a 3D house and discover a variety of tile installations. With a variety of installation videos and handbooks, and virtual rooms you can customize, the *SchluterHouse.com* is the most resourceful site to consult prior to starting any tile project.

In the KITCHEN

Tiled countertops provide the perfect combination of functionality and beauty. They are resistant to high heat, staining and scratching, and are easy to clean. Plus, today's large-format tiles allow for minimal grout joints. Schluter® Profiles make it easy to produce stunning sink rails, hygienic backsplash transitions, and practical tiled-under sinks.

Tuscan beige profiles blend perfectly with the large-format tiles on the countertop, and frame the mosaic insert in the backsplash in this modern kitchen.

Schluter®-**RONDEC-CT** double-rail edging profile applied to the sink rail. Schluter®-**RONDEC** edging profile used to finish the tile edges of the backsplash, and produce the tiled-under sink. Schluter®-**DILEX-AHK** cove-shaped profile used to create a smooth transition between the countertop and backsplash. Schluter®-**QUADEC-FS** used to frame the decorative mosaic insert in the backsplash. Schluter®-**DILEX-EKE** PVC corner movement joint profile inserted in the backsplash corners to create a seamless transition. Matching corners used throughout.

The satin anodized aluminum profile on the sink rail creates a bold, sleek finish in this modern kitchen design.

Schluter®-RONDEC-STEP edging profile applied to the sink rail. Schluter®-RONDEC edging profile and large radius sink corners used to produce the tiled-under sink. Schluter®-DILEX-AHK cove-shaped profile used to create a smooth transition between the countertop and backsplash.

This charming country kitchen was given a modern twist with nickel profiles and stainless steel appliances.

Schluter®-**RONDEC** edging profile and corners used to finish the tile edges of the backsplash and tile base. Schluter®-**RONDEC-CT** double-rail edging profile applied to the sink rail. Schluter®-**DILEX-AHK** cove-shaped profile used to create a smooth transition between the countertop and backsplash.

Unique porcelain tile, natural wood, and terra-cotta accents give this kitchen a rustic feel, while stainless steel profiles and fixtures add a modern touch.

Schluter®-**RONDEC** edging profile and corners used to produce the tiled-under sink and finish the tile edges of the raised ledge and sink rail. Schluter®-**DILEX-EHK** cove-shaped profile used to create a smooth transition between the countertop and backsplash.

Schluter®-RONDEC edging profile and corners used to finish the countertop trim and tile edges of the backsplash. RONDEC was also used to produce the tiled-under sink. Schluter®-RONDEC-CT double-rail edging profile applied to the sink rail. Schluter®-DILEX-AHK cover-shaped profile used to create a smooth transition between the countertop and backsplash.

Schluter®-RONDEC edging profile and corners used to finish the countertop trim and tile edges of the backsplash. RONDEC was also used to produce the tiled-under sink. **Schluter®-RONDEC-CT** double-rail edging profile applied to the sink rail. **Schluter®-DILEX-AHK** cover-shaped profile used to create a smooth transition between the countertop and backsplash.

In the BATHROOM

The timeless beauty of ceramic and stone tiles can bring a relaxing spa feeling home. Schluter® Profiles are suitable for creating hygienic transitions and protecting tile edges in wet areas. They can also be used to frame shower niches and mosaic inserts, or as accents in tile fields.

Hexagon shaped tiles installed on the floor and wall of this shower accent the design, while Tuscan bronze profiles complement the rich brown colors and create clean finished edges and corners.

Schluter®-QUADEC edging profile and corners applied to tile edges and outside corners of the shower bench and niche, and used to finish the tile base. **Schluter®-DILEX-AHK** cove-shaped profile and corners used to create a smooth transition between the walls and floor.

Brushed stainless steel profiles add a modern touch to this rustic bathroom, creating a spa-like feel.

Schluter®-**QUADEC** edging profile and corners applied to the tile edges of the bathtub skirting and wall tile, and used to produce the niches.
Schluter®-**QUADEC-FS** double-rail edging profile applied to the sink rail.
Schluter®-**DILEX-EHK** cove-shaped profile used to create smooth floor/wall and countertop/wall transitions.

The tile chosen for this shower offered beautiful listellos, but no bullnose tile for the edges. PVC profiles in light beige integrated perfectly with the tile and eliminated the need for matching bullnose tile.

Schluter®-RONDEC PVC edging profile used to finish the tile edges on the wall and tile base.

Stainless steel profiles match the chrome fixtures and combine with the white tiles and wood flooring to create a sleek look that is warm and inviting.

Schluter®-**QUADEC** edging profile and corners applied to the bathtub surround and skirting, and the tile edges on the wall.

Brushed nickel profiles and fixtures add a cooling touch to the warm natural stone and glass mosaic tiles in this bathroom.

Schluter®-**QUADEC** edging profile and corners applied to the shower bench, and used to produce the decorative mosaic insert and niches. Schluter®-**RONDEC** used to finish the tile edges on the wall. Schluter®-**RONDEC-CT** double-rail edging profile applied to the sink rail. Schluter®-**DILEX-AHK** cove-shaped profile used to create smooth transition between the countertop and tile base.

Satin nickel profiles installed throughout this modern bathroom match the shower fixtures and drain grate creating a professional, finished look.

Schluter®-**QUADEC** edging profile and corners applied to the tile edges of the shower and tile base, and used to create the niche. Schluter®-**QUADEC-FS** double-rail edging profile used to frame the mosaic insert in the wall. Schluter®-**DILEX-EKE** PVC corner movement joint profile in classic grey used to create a seamless transition between the shower walls and floor.

PVC profiles in light beige create a subtle finish by blending with the neutral tiles in this contemporary bathroom.

Schluter®-**JOLLY** PVC edging profile applied to the tile edges of the bathtub platform and tile base.

Stainless steel profiles create decorative accents in this minimalist bathroom design.

Schluter®-**QUADEC** edging profile and corners applied to the tile edges on the wall, and used to produce a decorative accent above the sink.
Schluter®-**DILEX-EHK** cove-shaped profile and corners used to create a smooth transition between the shower floor and walls.

Schluter® PROFILES

Leaving tile edges unfinished not only leads to damage, it also drastically diminishes the aesthetic appeal of the design. Schluter® Profiles finish and protect tile edges, helping to ensure your installation will stand the test of time.

Tile Edges and Outside Wall Corners

Profiles for tiled edges and outside wall corners finish and protect exposed edges of tiled surfaces such as walls and countertops.

Schluter®-RONDEC

Bullnose profile creating a soft finish to a tiled edge or outside corner installation.

Accessories include: inside and outside corner pieces, sink corner pieces, end caps, and connectors.

Schluter®-QUADEC

Square shaped profile creating a sleek look.

Accessories include: inside and outside corner pieces, end caps, and connectors.

Inside Wall Corners

Cove-shaped profiles eliminate the need for caulking, are easy-to-clean and do not trap debris or moisture, making them suitable for use in areas with strict hygienic requirements such as showers and kitchen countertops.

Schluter®-DILEX-AHK

Anodized aluminum profile for applications where limited movement is expected.

Accessories include: inside and outside corner pieces, end caps, and connectors.

Schluter®-DILEX-EKE

PVC movement joint profile forming a discreet, uniform joint. Available in various colors to match grout.

Countertops

Profiles for countertops finish and protect exposed edges of tiled surfaces. The various finishes available offer endless design possibilities.

Schluter®-RONDEC-CT

Double-rail profile with symmetrically rounded edges matching RONDEC. Features a recessed section for field or accent tile inserts.

Accessories include: inside and outside corner pieces.

Schluter®-RONDEC-STEP

Symmetrically rounded edges matching RONDEC, this profile is also ideal for stair applications.

Accessories include: inside and outside corner pieces.

Decorative Profiles

Decorative strip profiles are used to create design accents and interesting contrasts in the tile field. They can be used to frame a mosaic insert, create a break between two different tiles, or as a decorative accent to break up a large tile field.

Schluter®-QUADEC-FS

Double-rail feature strip profile with square edges matching QUADEC. Features a recessed section for field or accent tile inserts.

Accessories include: inside and outside corner pieces.

Schluter®-DESIGNLINE

Border profile used to create decorative designs in tile fields on walls or floors.
